by Artspace Editors
June 6, 2016

David Gryn is the director and co-founder of the year-old digital art and video collecting platform Daata Editions and the film curator at Art Basel Miami Beach, so it's perhaps unsurprising that his picks for LISTE 2016 tend toward moving images, technological interventions, and outside-the-box thinking of all kinds. Read up on the rationale behind his selections here, and stop by the fair from June 14-19 in Basel, Switzerland for more art world action.
