*Pictures at an Exhibition* presents images of one notable show every weekday. This week's shows were picked by artist Dawn Kasper. Read more about this week's *Pictures* [here](#).

Today's show: "Lucy Dodd: Wuv Shop" is on view at David Lewis in New York until Sunday, December 20. In this solo show, Dodd explores and disrupts the ritualized nature of the space as she transforms the exhibition and the works displayed during the show's two-month run.
